FooBaSKILL®

BEGINNER LEVEL (WITH SKILLGOAL)

THE GAME®

FooBaSKILL is a new discipline that has been developed by three physical education teachers from Switzerland. It puts into practice the attributes of football and basketball, and is played with the SKILLGoal and the innovative ball - SKILLTheBall - which has a combination of football and basketball textures. The material has the great particularity of being multifunctional.

This option allows you to play FooBaSKILL at schools and clubs that do not have gymnastics boxes. One advantage is that the teacher will save time for the installation of the material!

PLAYING FIELD

BASIC RULES

The specificity of FooBaSKILL lies in the interchange of lower body (football) and upper body (basketball) work. Players change discipline at the midline of the pitch. The points scored in football and basketball vary according to the difficulty of scoring. The basic rules are identical to those of football and basketball (the walking and the double dribbling rule are applied).

PLAYING FIELD (see picture at the top on the right)

Half of the pitch is equipped with two FooBaSKILL goals placed on the ground and with a cone (FooSKILL). Players can score from the front or back of the SKILLGoal. An arc of a circle delimits each goal as shown in the image in the FooSKILL area. Neither the defender nor the attacker has the right to enter into this area. In the other half, is a basketball hoop (BaSKILL). The center line must be visible by a line or pads placed on the ground. Depending on the organization of the course and the number of players, the teacher chooses one of the two options below for the position of the players on the field:

- **OPTION 1 « USE OF WALLS »:** Two teams of four (or five) players face each other. The back and side walls are an integral part of the playing field, so players can use them to bounce the ball against.
- **OPTION 2 « SUPPORT PLAYERS »:** Two teams of 8 players compete against each other: 4 players position themselves on the field and 4 players on the sides in the attacking zone. They serve as a support to their teammates (role of passing and/or shooting). The support players move in their lane without anyone being able to enter it. They can keep the ball in their feet (area FooSKILL) or in their hands (area BaSKILL) for 3 seconds maximum.

MATCH TIME: 2 x 5 minutes. During the first half, a team defends the soccer goals and attacks the basketball hoop. Then in the second half, the teams reverse the roles.

KICK-OFF

The tip off at the beginning of the game and at half-time is initiated by a jump ball, as in basketball. Each team is free to place itself on the field.

FOULS

- In the event of a foul, the game continues at the place where the foul has been committed.
- In the event of a foul, the player puts the ball on the ground with at least one hand and the game restarts instantly with a pass.
- To score in football, the player must be in the FooSKILL area or a foul is committed. The same goes for basketball.
- In a football shot intended to cause the cone to fall or the ball go through the FooBaSKILL goal, the ball may not exceed the height of the goals. If this happens, a foul is committed and the ball goes to the defense.
- Inappropriate tackles and physical contact are sanctioned by a penalty or a free throw.
- A foul is committed if the ball touches the ceiling and any type of suspended gear.
- A foul is committed if the ball bounces off the edge or the back of the basketball board, as well as on the structure supporting the basketball hoop.

The official foobaskill material, the explanatory manual and the short video summarizing the rules are available on foobaskill.fr.
